
Navigational Aids Maintenance

Project Location: Citrus County, Florida

UESI had a blanket contract to perform all repairs, maintenance and construction of new navigational aids in Citrus County. Navigational aids include pile-mounted signs and anchored buoys. Pilings are typically 8- and 10-inch timber. Signs are typically timber construction up to 3 feet x 4 feet in size. The buoys include spar and can regulation buoys mounted on helix or Manta Ray anchors. Part of the project included providing emergency service with 24-hour response time to repair any broken navigational aids.

Completion Date: January 2011
